

IVAN NICOLAS GUERRERO

QA LEAD - QA ENGINEER

PROFILE

QA Engineer with more than 10 years of experience in Software Testing and over 5 years working as a QA Lead.

I started my career at Atos Argentina as a Trainee Tester and was promoted to Senior QA after 5 years.

Later, I worked at Acqua Consulting on the AVIO @IQVIA project as a QA Lead, a position I achieved after previously working as a Senior Tester within the same project.

I also worked as a QA Lead at Planexware.

Currently, I work as a QA Engineer at CloudX @EY on a project that integrates Artificial Intelligence and Automation to address client needs.

I enjoy teamwork, proactive, like challenges, and I have a strong attention to detail.

Looking to continue growing and learning in QA Lead roles while also improving my skills in Automated Testing, LLM-based agents, and AI-driven testing technologies.

ACADEMIC TRAINING

- Automated Testing – Selenium Academy
- Professional Software Testing Course @ UTN Buenos Aires
- Accredited Software Testing Fundamentals Certification (ASTFC) – International Association of Quality Software (AIQS)
